

Innovate in भारत For the World

SIB SHInE

School of International Biodesign-Synergising Healthcare Innovation and Entrepreneurship is an year-long full time dedicated residential fellowship program

jointly led by King George's Medical University Lucknow and Indian Institute of Technology Kanpur;
sponsored by the Department of Biotechnology (DBT), Govt. of India.

The SIB-SHInE Biodesign program serves as a springboard for launching, redirecting, or accelerating a career in biomedical innovation and entrepreneurship.
